## Experience

**Chevron** Oil & Gas  
Software Developer (Contract)

December 2019 - February 2020

### **Drilling and Completions Systems Lab Team**

*Worked as a developer within a multidisciplinary team modeling D&C operations as a computational knowledge graph using the Maana platform*

- Developed and deployed a web application (React/Styled Components/Azure) using GraphQL to query MaanaQ / Also implemented Auth0 Universal Login authentication
  - Developed and deployed Node.js micro-services mapping data from various data sources/formats to a specified GraphQL schema
- 

**The Home Depot** E-Commerce  
Software Developer

October 2018 - November 2019

### **Measure and Install (MANDI)**

*Developing Software to facilitate Home Depot's professional measurement and installation program*

- Delivered a greenfield .NET Core back-end replacing HD's existing system supporting shopping for/purchasing MANDI services / Also performed extensive refactoring of the blinds.com web UI (React/Redux/Styled Components) to accompany the new back-end
  - Migrated HD's MANDI job system from SQLServer/REST API to Firebase Firestore/GraphQL API increasing system performance and giving HD the confidence to extend the MANDI program coverage from 20% to 60% of the United States
  - Built a NodeJS/Express REST API used by 3rd party MANDI Service Providers to read/write HD MANDI job data from their software
  - Deployed a machine learning model using AWS Sagemaker/Lambda/API Gateway whose inference data helps significantly reduce the MANDI process cycle time
- 

**SmartVault** Cloud document management  
Software Developer

August 2014 - May 2018

### **Product Team**

*Part of a team of developers practicing Agile/SCRUM methodology with 2 week sprints and monthly releases*

- Porting legacy ASP.NET/C# client functionality into SmartVault's recently developed AngularJS client
  - Building customer facing UI for SmartVaults Windows Desktop client (C#/WinForms) and Javascript web client (AngularJS)
  - Optimized/re-worked several SmartVault application workflows including SV's Windows Desktop client "Send to Support", "Simple-View" files and folders view (AngularJS), and "Seasonal user licenses"
  - Introduced several SmartVault features including a special "Services-User" user type, custom portal branding, and PDF encryption
  - Increased SV's AngularJS client unit test coverage from approx. 30 - 90% via javascript testing using JasmineJS/Karma
-

---

## *Technical*

HTML/CSS	C#/.NET	GIT/Mercurial
Javascript/TypeScript	SQLServer/MySQL	Docker
React/Redux	Jest/Unit	AWS
Node.JS/Express	Firebase Firestore	GraphQL/REST

---

## *Education*

University of Wisconsin-Milwaukee  
B. S. Information Science and Technology, 2013
